

KIWI CLUB GOSE

GOSE STYLE

SOUR & FRUITY • BREWED WITH KIWI, CORIANDER & SEA SALT

Bell's Kiwi Club Gose is a modern Gose – kettle-soured with pediococcus or pedio for short. Brewed with both traditional (coriander & salt) and non-traditional (kiwi) ingredients, it is tart and very drinkable, with fruity notes and a hint of sea salt.

The name Kiwi Club comes not only from the use of Kiwi in the recipe, but also is a nod to the spirit of travel and adventure. This is the beer you drink when you get together with friends and talk about all the places you want to travel together.
