

BELL'S®

CELEBRATE SUMMER WITH AN

OBERON BEERMOSA

25% sparkling white wine

15% orange juice

60% Oberon

Mint leaf and/or an orange as garnish

From our experience, we've found it works best to pour the sparkling white wine first, then the orange juice and top it off with Oberon. Make sure to pour slowly to avoid making a mess. We've also found using fresh-squeezed orange juice tastes best, but you can use whatever juice you prefer.
