

KEEP THOSE OFFICIAL HAZY IPA PINTS LOOKING PERFECT!

At Bell's we make unfiltered beers. We leave the yeast in, lending more flavor and body. Official Hazy IPA is an unfiltered Ale. The protein in the malt, combined with the yeast, create that unique Official Hazy IPA taste, body and mouthfeel.

Sometimes that yeast and protein can settle out of the beer. Not to worry, follow these easy steps to pour that perfect Official Hazy IPA pint.

THE OFFICIAL HAZY IPA PINT SWIRL

1. Pour half the Official Hazy IPA into a beer-clean glass.

2. Swirl bottle or can to reincorporate the yeast into the beer.

3. Finish pouring beer into pint glass and enjoy!

The Official Hazy IPA Pint Swirl can help hazy beers that are unfiltered or have a high protein content.
